

1

Contact

Contact HSI to discuss the standard(s) that would most benefit your organization. We can also help answer questions about the assessment process. Ask for an application at this time.

2

Purchase

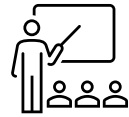

Purchase the standard(s). Your organization will need a copy of the standard to know all the requirements and prepare for your assessment.

3

Submit

Submit an application for certification.

4

Educate

Educate, implement, improve - All steps you will take to get ready for your assessment.

5

Pre-Assessment

This is an optional step that you can request to ensure that your organization is moving in the right direction and addressing all mandatory requirements before the official certification audit.

6

Documentation Review

In this step of the process, HSI auditors will review your written documentation to prepare for the onsite visit.

7

Onsite Assessment

Our auditors will observe, interview, and collect objective evidence to prove conformance to the standard.

8

Corrective Action

In the event that the assessment team finds nonconformities during the assessment, you will have the opportunity to correct and improve.

Congratulations!

You have received certification. Follow HSI guidelines to more effectively use your well-earned certification mark. Communicate how much you care to the marketplace, your patients, and stakeholders.
